### Investment Strategy, Philosophy in Deciding Dividends and Fulfillment Ratio:

BOC Life invests globally in various types of assets, in order to achieve the advantages of diversification in investment portfolio. The assets supporting the policies under the Plan mainly consist of the following:

	Mix
Fixed income instruments or interest-bearing securities	60% - 80%
Growth assets	20% - 40%

Fixed income instruments or interest-bearing securities include but not limited to government and corporate bonds, etc.

- BOC Life primarily invests in investment-grade bonds, together with a small portion of high-yield bonds and emerging-market bonds to further improve yield.
- Under normal circumstances, the major markets invested by BOC Life are North America, the Chinese mainland, Hong Kong and other Asian developed countries.

Growth assets include but not limited to listed equity, private equity, mutual funds, properties investment, etc. BOC Life invests in diversified growth assets, which aims to achieve a higher long term return over fixed income investments.

With the aim of achieving our long term investment target, BOC Life, at our sole discretion, reserves the right to adjust the aforementioned asset allocation when there are material changes in market outlook and condition, or engage in other financial arrangements including but not limited to reinsurance arrangement. BOC Life aims at investing in assets denominated in policy's currency. If the currency by which the assets are denominated is not the same as policy currency, BOC Life may use derivatives to manage the impact of currency risk.

For the latest Investment Strategy, please refer to BOC Life website [www.boclife.com.hk](http://www.boclife.com.hk).

### Philosophy in Deciding Dividends:

Participating insurance plans provide Policy Owners an opportunity to receive a share of profits attributable to the participating life insurance business of BOC Life by means of dividends, with the potential prospect of long-term rates of return. To accomplish the purpose, we invest in a wide range of asset portfolios that are prudently chosen by BOC Life to balance the risk. In general, the asset portfolios mainly consist of fixed income securities and equity investments.

The actual amount of dividends is determined by the stipulated surplus sharing approach in BOC Life's policy, which is based on the past experience of BOC Life and the long-term expectation of the participating life insurance business in the future. Dividends amount mainly depends on the overall performance of the participating life insurance business of BOC Life, taking into account factors including investment returns, claim experience, persistency and operating expense. The actual amount of dividends payable is recommended by our Appointed Actuary according to the aforementioned company's policy and approved by the Board of Directors of BOC Life.

Dividends paid can be left with BOC Life and accumulate with interest. The interest rate (Dividends Accumulation Rate) is determined based on market conditions and expected investment return of BOC Life.

In light of the above factors, dividends and Dividend Accumulation Rate are not guaranteed and may be higher or lower than the values illustrated in the proposal summary provided at point of sale.

You may browse the following website, [www.boclife.com.hk/ps](http://www.boclife.com.hk/ps), to understand BOC Life's philosophy in deciding dividends as well as dividend history for reference purposes. Please note that past performance of dividend is not an indicator for its future performance.

### Risk Disclosure of RMB and USD Insurance:

RMB and USD policies are subject to exchange rate risk. The exchange rate between RMB and HKD or USD and HKD may rise as well as fall. Therefore, if calculated in HKD, premiums, fees and charges (if applicable), account value / surrender value and other benefits payable under RMB or USD policy will vary with the exchange rate. The exchange rate between RMB and HKD or USD and HKD will be the market-based prevailing exchange rate determined by BOC Life from time to time, which may not be the same as the spot rate of banks. The fluctuation in exchange rate may result in losses if a customer chooses to pay premiums in HKD, or requests the insurer to pay the account value / surrender value or other benefits payable in HKD, for RMB or USD policy. **RMB Conversion Limitation Risk** - RMB Insurance is subject to exchange rate fluctuations which may provide both opportunities and risks. The fluctuation in the exchange rate of RMB may result in losses in the event that the customer converts RMB into HKD or other foreign currencies. RMB is currently not fully freely convertible. Individual customers can be offered CNH rate to conduct conversion of RMB through bank accounts and may occasionally not be able to do so fully or immediately, for which it is subject to the RMB position of the banks and their commercial decisions at that moment. Customers should consider and understand the possible impact on their liquidity of RMB funds in advance.

### Credit Risk:

Insurance contract is signed between customers and BOC Life. Therefore, customers are subject to the credit risk of BOC Life. Premiums paid by Policy Owner will become part of BOC Life. If BOC Life becomes insolvent or goes into liquidation or defaults on its obligations, customers may result in substantial losses.

**Premium Overdue Risk:**

The Policy Owner should pay premium on time during the premium payment term. It may result in lapse or termination of the policy if the required amount (such as premium) is not made before expiry of the grace period (if applicable) as prescribed by BOC Life. Nevertheless, it is subject to the automatic premium loan (if applicable) (BOC Life will advance the premium due from the non-forfeiture value as an automatic premium loan<sup>2</sup>) and non-forfeiture provisions (if applicable). If the policy is terminated or lapsed due to non-payment of premium, the surrender value received by the Policy Owner may be less than the total premiums paid and the Policy Owner will lose the insurance protection provided by the policy.

**Policy Termination Risk:**

BOC Life may terminate the policy before the maturity date if any one of the following events occurs:

- (i) the death of the Insured; or
- (ii) BOC Life approves the Policy Owner's written request for surrender; or
- (iii) the policy lapses after the end of the grace period; or
- (iv) the non-forfeiture value is less than zero (if applicable).

**Inflation Risk:**

The actual rate of inflation may be higher than expected, therefore the amount you receive may be less in real terms.

**Early Surrender Risk:**

The Plan is designed to be held for a long term period. Early surrender, partial withdrawal, reduction or suspension of premium may result in a significant loss of principal.

**Taxation Risk:**

There might not be tax deduction benefits for retired Policy Owners who are not subject to salaries tax or tax under personal assessment.

**Certification by the Insurance Authority:**

The mere fact that the Plan has been certified by IA does not mean that the premiums paid for policies under the Plan are eligible for tax deductions. Certification by IA is only an indication that the product complies with the criteria set out by IA. IA's certification is not a recommendation or endorsement of the Plan nor does it guarantee the commercial merits of the Plan or its performance. It does not mean the Plan is suitable for all Policy Owners nor is it an endorsement of its suitability for any particular Policy Owner or class of Policy Owners. The Plan has been certified by the IA but such certification does not imply official recommendation. The IA does not take any responsibility for the contents of the product brochure of the Plan, makes no representation as to its accuracy or completeness, expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of the product brochure of the Plan.

**Remarks:**

1. The annuitant means an individual being entitled to receive the Guaranteed Monthly Annuity Income payable under the basic plan. The Annuitant is the Policy Owner of the Plan. The Policy Owner and the Insured of the Plan must also be the same individual.
2. Please note that the Qualifying Deferred Annuity Policy ("QDAP") status of this product does not necessarily mean you are eligible for tax deduction available for QDAP premiums paid. This product's QDAP status is based on the features of the product as well as certification by the IA and not the facts of your own situation. You must also meet all the eligibility requirements set out under the Inland Revenue Ordinance and any guidance issued by the Inland Revenue Department of HKSAR before you can claim these tax deductions. Any general tax information provided is for your reference only, and you should not make any tax-related decisions based on such information alone. You should always consult with a professional tax advisor if you have any doubts. Please note that the tax law, regulations or interpretations are subject to change and may affect related tax benefits including the eligibility criteria for tax deduction. BOC Life does not take any responsibility to inform you about any changes in the laws and regulations or interpretations, and how they may affect you. Further information on tax concessions applicable to QDAP may be found at the website of IA [www.ia.org.hk](http://www.ia.org.hk).
3. If the Policy Owner chooses to withdraw the accumulated Guaranteed Monthly Annuity Income and / or interest accrued thereon (if any) and / or Non-guaranteed Monthly Annuity Income (Monthly Dividends) (if any) and / or interest accumulated (if any), the accumulated Guaranteed Monthly Annuity Income and / or interest accrued thereon (if any) and / or Non-guaranteed Monthly Annuity Income (Monthly Dividends) (if any) and / or interest accumulated (if any) withdrawn will no longer be accumulated as part of the total cash value and the total Death Benefit of the policy. The total cash value, the surrender value and the total Death Benefit of the policy will be reduced accordingly. For details, please refer to the illustration summaries of the proposal and contact your Financial Consultants.
4. The Plan is a participating policy. Its Non-guaranteed Monthly Annuity Income (Monthly Dividends) (if any) and the annual interest rate for the accumulation of Guaranteed Monthly Annuity Income and dividend accumulation, and Terminal Dividend (if any) are not guaranteed and may be changed from time to time. Past performance is not indicative of future performance. The actual amount received may be higher or lower than the estimated amount. BOC Life reserves the right to change them from time to time. Guaranteed Monthly Annuity Income, Non-guaranteed Monthly Annuity Income (Monthly Dividends) (if any) and interest accrued there on shall be first applied to offset any indebtedness.
5. The Death Benefit of the Plan is equivalent to 100% of Guaranteed Cash Value plus Terminal Dividend (if any) as at the date of the Insured's death or 105% of Total Premiums Paid as at the date of the Insured's death subject to the maximum amount of 100% of the Total Premiums Paid plus RMB78,125 / HKD100,000 / USD12,500, less all the Guaranteed Monthly Annuity Income distributed (whichever is higher); plus the accumulated Guaranteed Monthly Annuity Income and interest accrued thereon (if any), and the accumulated Non-guaranteed Monthly Annuity Income (Monthly Dividends) (if any) and interest accrued thereon (if any); less indebtedness (if any) and outstanding premiums (if any). "Total Premiums Paid" means the total premiums paid for the basic plan. Any Premium Deposit Account balance or rider premiums (if applicable) shall be excluded. Premium discount (if any) will not be taken into account when calculating the Death Benefit. If the Insured is covered by more than one policy under the Plan issued by BOC Life, please refer to the policy documents and provisions issued by BOC Life for details regarding the maximum amount of the Death Benefit payable. Indebtedness shall include but not limited to any policy loan that has been taken by the Policy Owner and its interest (if any). Whilst the policy is in force, the Policy Owner can apply for a policy loan against Guaranteed Cash Value of the policy provided that no loan may be applied for after the commencement of the Annuity Income Period and subject to the policy loan provision. Upon the termination of policy, if the policy loan and its interest (if any) have not been settled in full, they will be deducted from the total cash value thereupon. Once the Policy Owner is unable to repay the policy loan and interest, where the total amount of indebtedness is equal to or higher than Guaranteed Cash Value, the policy will lapse, and the life protection and supplementary riders (if any) will be terminated without providing any surrender value, and the Policy Owner may sustain a substantial loss. For details, please refer to the policy provisions issued by BOC Life.

6. Bank account includes the bank account of Bank of China (Hong Kong) Limited / Chiyu Banking Corporation Limited.
7. Supplementary riders are not part of QDAP and the premium paid for such will not be eligible for tax deduction. Supplementary riders are subject to underwriting and corresponding issue age eligibilities. Premiums of such may be changed from time to time. For details, please contact your Financial Consultants. Normal underwriting is required if the policy is attached with supplementary rider(s).
8. Premium Deposit Account is only applicable to policy with Premium Payment Term of 5 years and annual payment mode. If premium prepayment option is selected, premiums and levy payable for 5 policy years have to be fully paid upon insurance application whereas further prepayment will not be accepted thereafter. If "Waiver Of Premium Rider" is attached to the policy, Premium Deposit Account is not applicable. Annual premiums and the corresponding levy will be deducted automatically from the Premium Deposit Account on each Policy Anniversary during the premium payment term when due. The Premium Deposit Account balance (if any) should be sufficient to pay the entire amount of annual premiums and levy of the policy, and cannot be used for partial settlement of annual premiums and levy. The Premium Deposit Account balance (if any) is accumulated with BOC Life at a non-guaranteed special accumulation interest rate. Special accumulation interest rates of the prepaid premium for HKD / USD / RMB policies are not the same. Since BOC Life may change the special accumulation interest rate and the premiums for some supplementary riders (if applicable) from time to time, the Premium Deposit Account balance (if any) is not guaranteed to be sufficient to cover all premiums and levy for the whole premium payment term. When the balance of the Premium Deposit Account (if any) is insufficient to pay the annual premium and levy payable, BOC Life will issue a premium notice to customer, and interest will not be accrued on the residual value. If withdrawal is made from the Premium Deposit Account or the policy is surrendered, the withdrawn amount (if any) will be provided to the Policy Owner without charges. If the Insured passes away, the Premium Deposit Account balance (if any) together with the Death Benefit will be payable to the policy beneficiary. For details, please refer to proposal and provisions issued by BOC Life.
9. The annualized guaranteed internal rate of return is calculated based on the Guaranteed Monthly Annuity Income payable and the Guaranteed Cash Value upon the death of the Insured, and assuming that (i) you choose to cash out all the Guaranteed Monthly Annuity Income monthly on time when they are payable at each Monthiversary during the Annuity Income Period, (ii) levy, premium discount (if any) and prepayment (if any) are not included, and (iii) all premiums are paid in full when due. The annualized total internal rate of return is calculated based on the Projected Monthly Annuity Income payable and the Guaranteed Cash Value plus the Terminal Dividend (if any) upon the death of the Insured, and assuming that (i) you choose to cash out all the Projected Monthly Annuity Income monthly on time when they are payable at each Monthiversary during the Annuity Income Period, (ii) levy, premium discount (if any) and prepayment (if any) are not included, and (iii) all premiums are paid in full when due. Projected Monthly Annuity Income includes Guaranteed Monthly Annuity Income and Non-guaranteed Monthly Annuity Income (Monthly Dividends) (if any). The annualized total internal rate of return is not guaranteed. If the Insured dies before the age of 90, the actual annualized guaranteed internal rate of return and annualized total internal rate of return will be lower than expected. These percentages are rounded to 2 decimal places, and depend on Insured's age, your chosen policy currency, premium payment term and premium payment mode.

**Levy Collection Arrangement:**

Insurance companies collect levies from Policy Owners on behalf of the Insurance Authority according to relevant requirement. For your convenience, levy will be collected together with the premium via the same manner (including automatic premium loan (if applicable)) whenever BOC Life collects premium from you.
